WAR OFFICIALLY REPORTED.

BELGIAN STATEMENT.

PARIS, November 15: The enemy artillery has cannonaded our positions to the north and south of Dixmude, together with Capelle, Oostkerke and Casterkerke. Our batteries vigorously bombarded the enemy positions at Leke and St. Pierre Capelle.

RUSSIAN STATEMENT.

PETROGRAD, November 14, via London, November 15: On the western (Russian) front the Germans attempted to take the offensive against the Borsemunde farm, in the Iksal district. They were repulsed by our artillery fire. In the Divinsk district, farther to the south, as far as Priepet, there is nothing to report.

Desperate fighting continues near the village of Medvedki, northwest of Czartorysk. The enemy's attempts to advance in the direction of the River Styr were stopped by our fire. Near the village of Podgacie, west of Czartorysk, there was desperate fighting.

On the Caucasus front, on the west shore of Lake Urmis, our troops repulsed Kurdish forces.

AUSTRIAN STATEMENT.

VIENNA, November 14, via London, November 15: After penetrating the hostile position northwest of Czartorysk we captured more than 1,500 men and four machine guns. We repulsed an attack west of Rafalovka.

Except for grenade fighting near Sapa now there has been no infantry action on the whole front.

At the beginning of our offensive the Italians declared Gorizia would be shot to ruins if they did not succeed in capturing it. During the first few days of the battle numerous shots fell in the town. Yesterday the hostile heavy artillery across the uncaptured bridgehead kept up a violent fire upon Gorizia. Meantime an unsuccessful Italian offensive has been directed especially against the northern part of the Dobrodo plateau. North of San Michele part of the front was temporarily lost to the enemy, but was entirely recaptured in the evening. Other Italian attacks were insignificantly repulsed.

Before the sectors south of Monte Dei Selbusi and before the Gorizia bridgehead our artillery stopped every attack. Several of our aeroplanes have dropped bombs on Verona.

The army of Gen. Koess in successful mountain fighting has made further progress. The Visegrad group, after seven days' fighting, has approached the lower Lim region, on the roads to Javor heights. Karagorges and Banac in the Banat and northern slope of the Planina ridge were reached. In the upper Rastina region the enemy, who was thrown back, retreated by way of Brus and Ploce. In these engagements we captured 17 officers and 1,200 men.

The army of Gen. Gallwitz repulsed the enemy in Toplica valley. In conjunction with Gen. von Gallwitz the Bulgarian forces are everywhere advancing.

BRITISH STATEMENT.

LONDON, November 15: In a German wireless message sent out the night of November 12 it was declared that British hospital ships are being used for conveying troops, munitions and other war material. This is absolutely false. British hospital ships always have and always will be used under the conditions prescribed by the Geneva and The Hague conventions.

BULGARIAN STATEMENT.

SOFIA, via London, November 15, 12:45 a.m.: The operations on all fronts are developing in our favor. The French, who had crossed the southern bank of the Chernareka, were repulsed by our counter attack and driven back across the river.

TURKISH STATEMENT.

CONSTANTINOPLE, November 14, via London, November 15, 3:13 a.m.: On the 13th in the Dardanelles there was usual artillery and hand-grenade fighting. Our artillery bombarded "Linen Lasts Longer—Looks Better."

MONTENEGRIN STATEMENT.

PARIS, November 14: There have been severe combats in the sanjak since Thursday. The enemy was unsuccessful. We captured 125 prisoners and considerable war material. Artillery actions continue on the other fronts.

FRENCH STATEMENT.

PARIS, November 15, 3:35 p.m.: During the day of November 12 we made progress to the north of Rastrovo, in the direction of Kosturno. Bulgarian troops delivered a violent attack along the entire front of the left bank of the River Cetina. They were driven back with heavy losses.

In the Artois district, at "the Labyrinth," the fighting between infantry and the German tanks continued with hand grenades, continued without interruption last night. It has been confirmed that the German tanks were during the action of November 14 were very heavy.

In the Champagne region the Germans have attacked with hand grenades the barriers erected in front of our listening posts at Butte de Faurba. They were repulsed.

In the Woivre, to the north of Cleiry, the explosion of one of our mines, together with the very sustained fire of our trench guns, overwhelmed the enemy and demolished his sapping works.

The following official communication was issued by the war office last night: In the Artois, in the Labyrinth, the Germans by a sudden attack this morning succeeded in penetrating, near the road from Lille, one of our first-line trenches. Our counter attacks immediately drove them out. The enemy left all his wounded on the ground.

Around Loos and Souchez there merely was a cannonading. To the north of the Aisne we concentrated what appeared to be a very effective fire on the German organizations on the plateau of Novour. A somewhat intense artillery action has continued in champagne in the region of the Butte du Mesnil, and on the heights of the Meuse, in the Chevaliers woods.

The following official communication from the French army in the east, received under date of November 13, has been given out by the French war office: The Bulgarians attacked on the 11th the village of Krutvaya and Krutkovo, which we had taken on the 10th. We repulsed their attacks, and then we captured the village of Krutkovo, and the village of Cicevo. North of Valandovo we have taken a Bulgarian fort and the height on which it is situated.

SERBIAN STATEMENT.

PARIS, November 15: The Serbian legation here has made public the following official communication: Although Belgrade is not yet in the hands of the French and British troops, the Bulgarians are hard pressed, and the fall of the town is imminent. The Bulgarians in the region of Voies have suffered enormous losses and have requested an armistice to bury their dead.

ITALIAN STATEMENT.

ROME, November 14, via Paris, November 15, 4:45 a.m.: In the Ledro valley, from the slopes of Nozzolo, from Montes Par, Cimadoro and Rocchetta, enemy artillery opened an intense fire against our positions, also throwing inflammable shells on Pezzeco and Pieve di Ledro, without, however, damaging our solid defenses.

On the Tyrol-Trentino front and in Carnia there were no important developments. On the Isonzo front our action continued yesterday. We progressed on Javorek, in the Plezzo basin, and on the heights northwest of Gorizia. On the Carso plateau we have taken strong intrenchments called Delle Frasche to the southwest of San Martino.

Our aeroplanes on the 12th, notwithstanding bad weather, made successful raids over the Carso. They bombarded the railroad stations at Reinfenberg, San Daniele, Sypoe and Dotogino, and long lines of train standing at the stations. Two enemy machines of the albatross type and one of the aviatore type, which were met on the way, were put to flight by machine gun fire. Our machines returned undamaged.

GERMAN STATEMENT.

BERLIN, November 15, via London, 3:05 p.m.: In the western theater: Northeast of Ecurie a projecting French trench 500 yards long was captured after fierce fighting and joined to our positions. On the remainder of this front there is nothing new to report.

In the eastern theater: A Russian local attack in the neighborhood of Smorgon broke down, with heavy losses, in front of our position. Army group of Prince Leopold of Bavaria: There is nothing to report.

On the Volga front, in connection with the invasion of the enemy lines at Podgacie (Volynia) the 4th and 5th Russian armies repulsed the Russian attack. The Russian were defeated. The western bank of the Styr has been cleared of all Russian troops.

In the Balkan theater: Our pursuit continued everywhere. Yesterday a total of 8,500 Serbians were made prisoners and twelve cannons were captured. Of these totals the Bulgarians captured 7,000 men and six cannons.

Two English scientists have decided that the sense of smell in man is weak when compared with animals, because of the human practice of kissing.
